Bhuj, Kachchh, Gujarat – India. | +91 99094 33358 | [darshanzramjiyani@gmail.com](mailto:darshanzramjiyani@gmail.com)

## Summery

As a Backend Team Lead, I have cultivated a strong foundation in project management, leadership, and cutting-edge technologies. My expertise spans the MERN stack, DevOps, and Linux OS engineering, allowing me to lead teams and drive complex projects to successful completion. I am passionate about creating innovative solutions that push the boundaries of technology. With a vision to merge ancient wisdom with modern technology, my goal is to earn a Ph.D. in OS engineering, contributing to academic and technological advancements in this field. I thrive in dynamic environments, constantly seeking opportunities to learn and grow. I believe in the power of collaboration and innovation, and I'm dedicated to making a meaningful impact on the world of technology.

## Skills & Abilities

- OS Engineering.
- Project Management
- SDLC Methodologies
- DSA & Logic Development.
- Databases.
- Embedded System/IoT
- Programming using C and Python.
- Full stack Web Development using Node JS, PHP, etc.
- Full stack Android Development using Java, SQL & NoSQL
- Object-Oriented Programming
- with Python, Java, and C++.
- Linux and Shell script

## Experience (4.5 years)

### TEAM LEAD – WEB DEVELOPMENT | AEONX DIGITAL | AUG 2024 - PRESENT

- Led full-stack development team in end-to-end web application projects using React and Node.js, overseeing SDLC from requirements gathering to deployment and post-launch monitoring.
- Architected high-performance algorithms and optimizations, reducing server load by 25% and enabling seamless handling of enterprise-scale traffic for procurement platforms.
- Directed code reviews, task allocation, and performance optimization initiatives to ensure scalable, secure solutions with SQL/NoSQL database integration.

### TEAM LEAD | DIT INTERACTIVE PVT. LTD | NOV 2022 – JULY 2024

- Directed cross-functional teams in delivering client web projects with **React** frontend and **Node.js** backend, mentoring developers and resolving technical challenges to meet deadlines.
- Led application enhancements and migrations, improving scalability and performance through optimized **RESTful APIs** and database queries.
- Coordinated **SDLC** processes, stakeholder communication, and deployment strategies to drive successful project outcomes.

### **FREELANCER | OCT 2021 – OCT 2023**

- Secured and successfully delivered multiple full-stack projects from open market opportunities, achieving high client satisfaction and repeat business by taking complete ownership from requirement gathering to deployment and post-launch support.
- Specialized in domain-specific mobile & web applications, including an Android app for pathology lab management (sample tracking, report generation, patient booking) and a property management system for rental businesses (tenant onboarding, rent collection, maintenance tracking, dashboards).
- Utilized Laravel, CodeIgniter, React/Node.js, Android SDK, SQL/NoSQL databases, and cloud platforms (AWS, GCP, IBM Cloud) to build scalable, secure, and high-performance solutions that improved operational efficiency for clients in healthcare and real estate sectors.

### **FULL STACK DEVELOPER | INFINITIES TECHNOLOGIES | AUG 2021 – OCT 2021 (INTERNSHIP)**

- Gained hands-on experience in full-stack web application development using Laravel and CodeIgniter PHP frameworks, building dynamic features, RESTful APIs, and integrating frontend with backend logic.
- Developed and deployed web applications leveraging cloud services including AWS, Google Cloud Platform (GCP), and IBM Cloud, handling basic infrastructure setup, hosting, and scalable deployment practices.

## **Education**

### **M.SC (IT) @ KSKV KACHCHH UNIVERSITY | OCT 2021 – APR 2023**

Gold medalist

### **BCA @ SANSKAR INSTITUTE OF MGT AND INFO. TECH. | JUNE 2018 – APR 2021**

Topper
